Sunday

Dear Folks,

I don't know just were to start but first I want to thank each and everyone of you for what you all did for us before the wedding, at the wedding and after the wedding. It has been the most gloriously happy part of my life and thanks largely to you all. I just can't ever thank you enough.

We came up here the morning of the 8th and ever since we have just simply enjoyed every minute. We have talked, walked, climbed and planned. It is a beautiful spot but you know that as you have been up here. The accommodation is very comfortable, every thing being neat & clean but the best part of it is the table. It is extra good. Why if we aren't as fat as butte balls when we leave then we shall never get fat. Good cooking of good things coupled with extra good milk & butter & eggs can't be beat.

The weather has been fine too. This morning especially. The whole Swannie valley lay wrapped in a beautiful shiny blanket which to us who were above it gave a wonderful illustration of the dark cloud & its silver lining.

A telephone call was in for us yesterday. Was it from you. We decided not (to) call you but to wait as we thought maybe you would call again if it was urgent.

When do you leave? & the Magills? We both feel like it is a shame for us to leave all those things for you all to pack up. We feel like we should help.

Has father left? I expect he has. & Maynard has gone I know. He was the best best man ever. I couldn't have done without him I know.

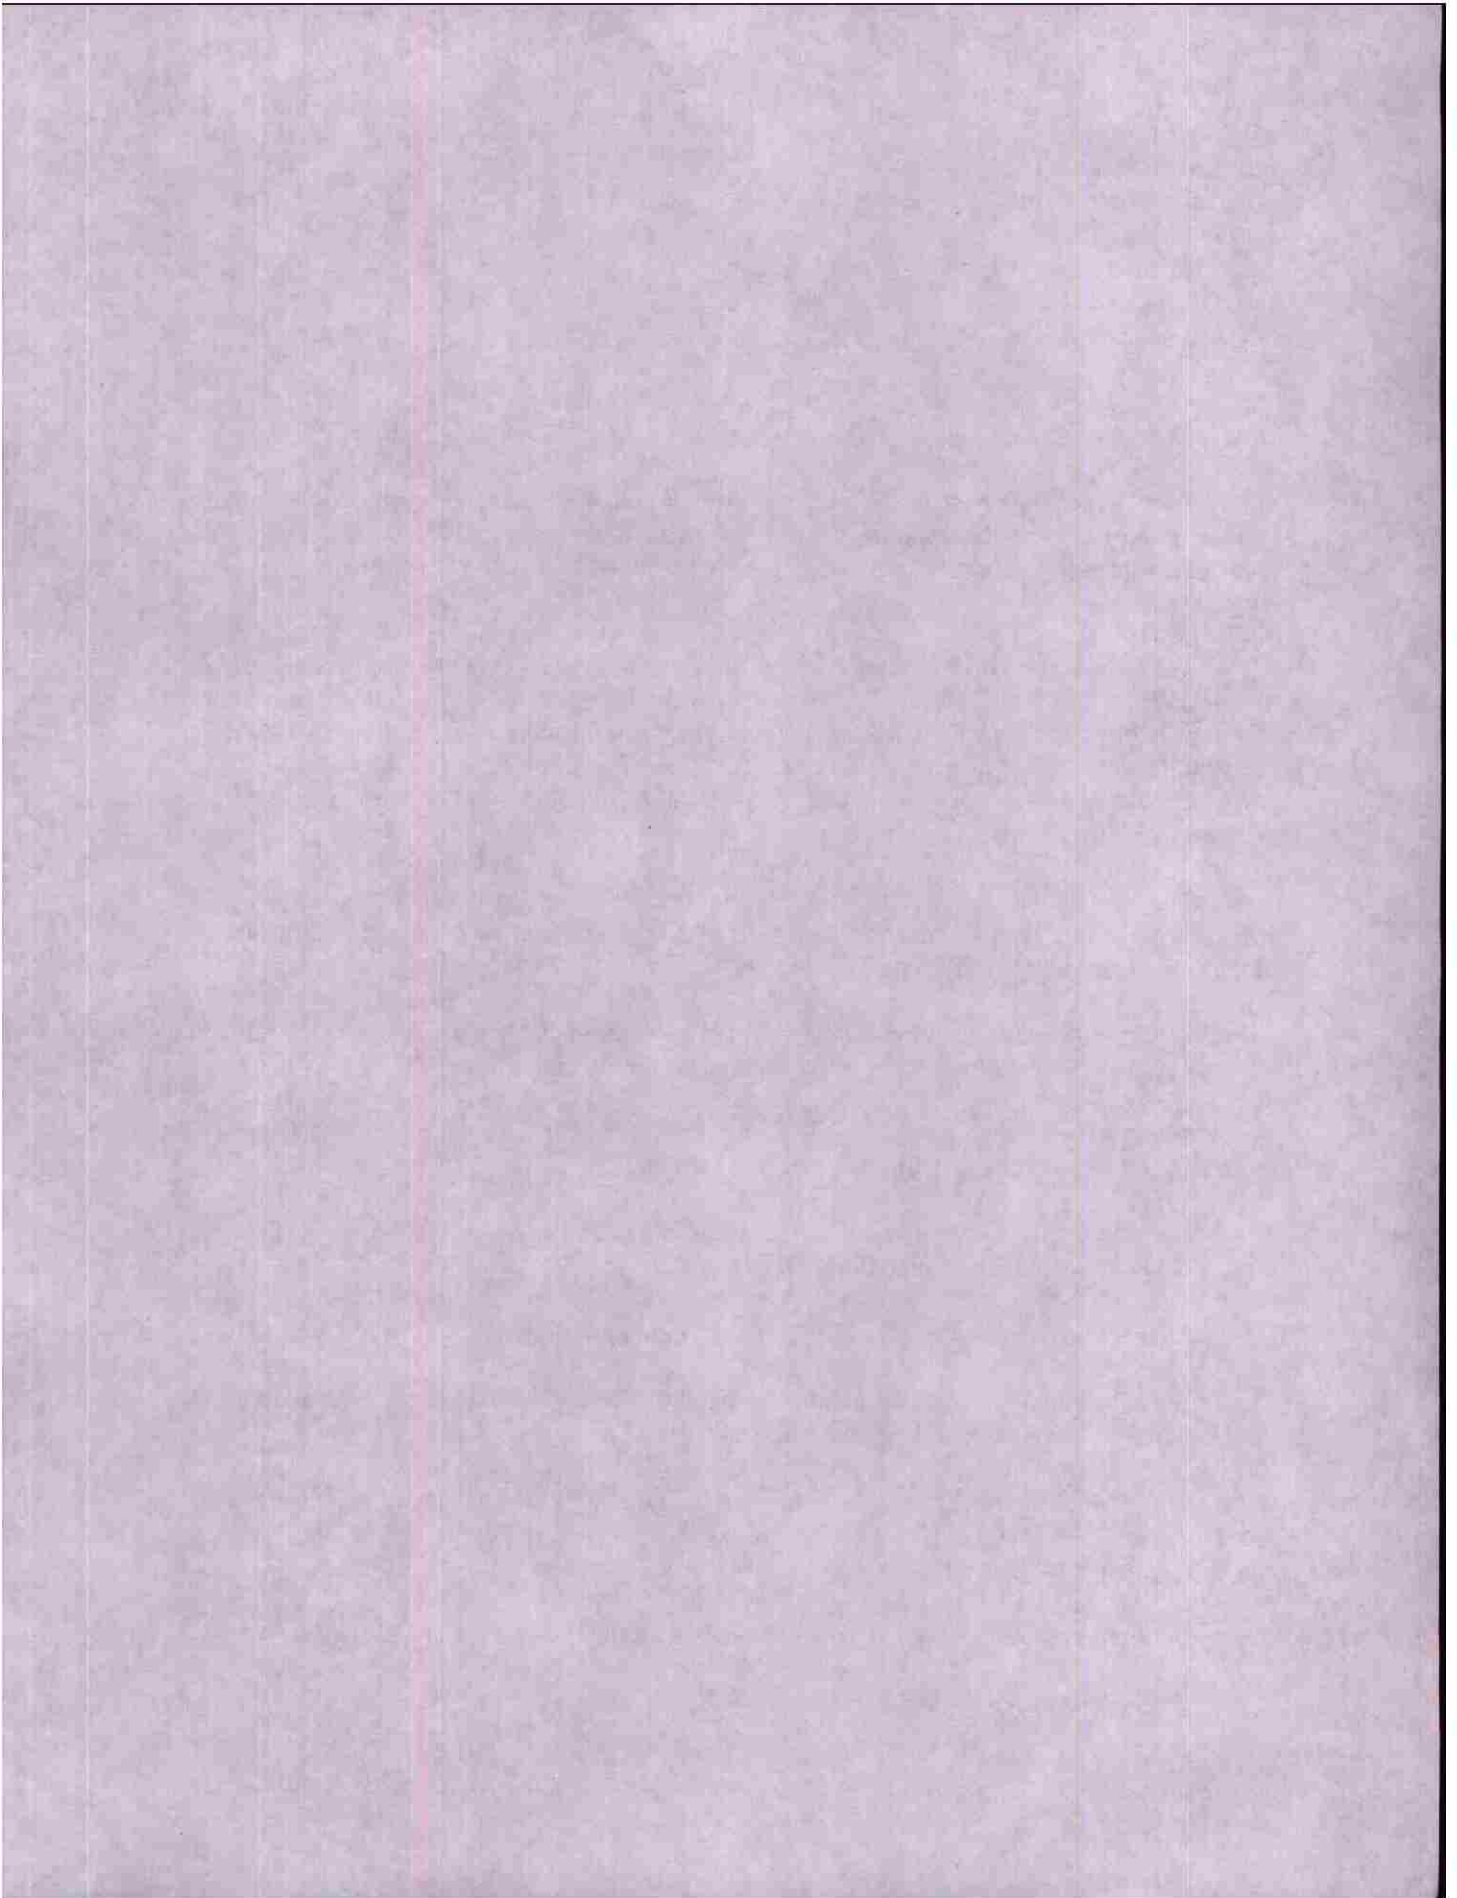

Elizabeth & I sure would like for you all to come up for dinner. I wonder if you could.

We have hiked all over the mountains around the Inn and have found some wonderful views. Mamma you sure would enjoy a visit here.

We are almost by ourselves. Another pair of "Newly Weds" and an old couple are all there are here. You would kill your self laughing at the bluff we are putting up to that other couple. We laugh at it ourselves.

Be sure to let us here (sic) as you leave and along the route.

Excuse this pencil as the ink is out.

Best love to all from us both.

Your devoted son,
William

My dearest "newly acquired family,"

We feel most like we are within speaking distance of you all as we can see cars going along the Black Mt. - Asheville road and wonder each time if they are the Packard, Studebaker, or Dodge.

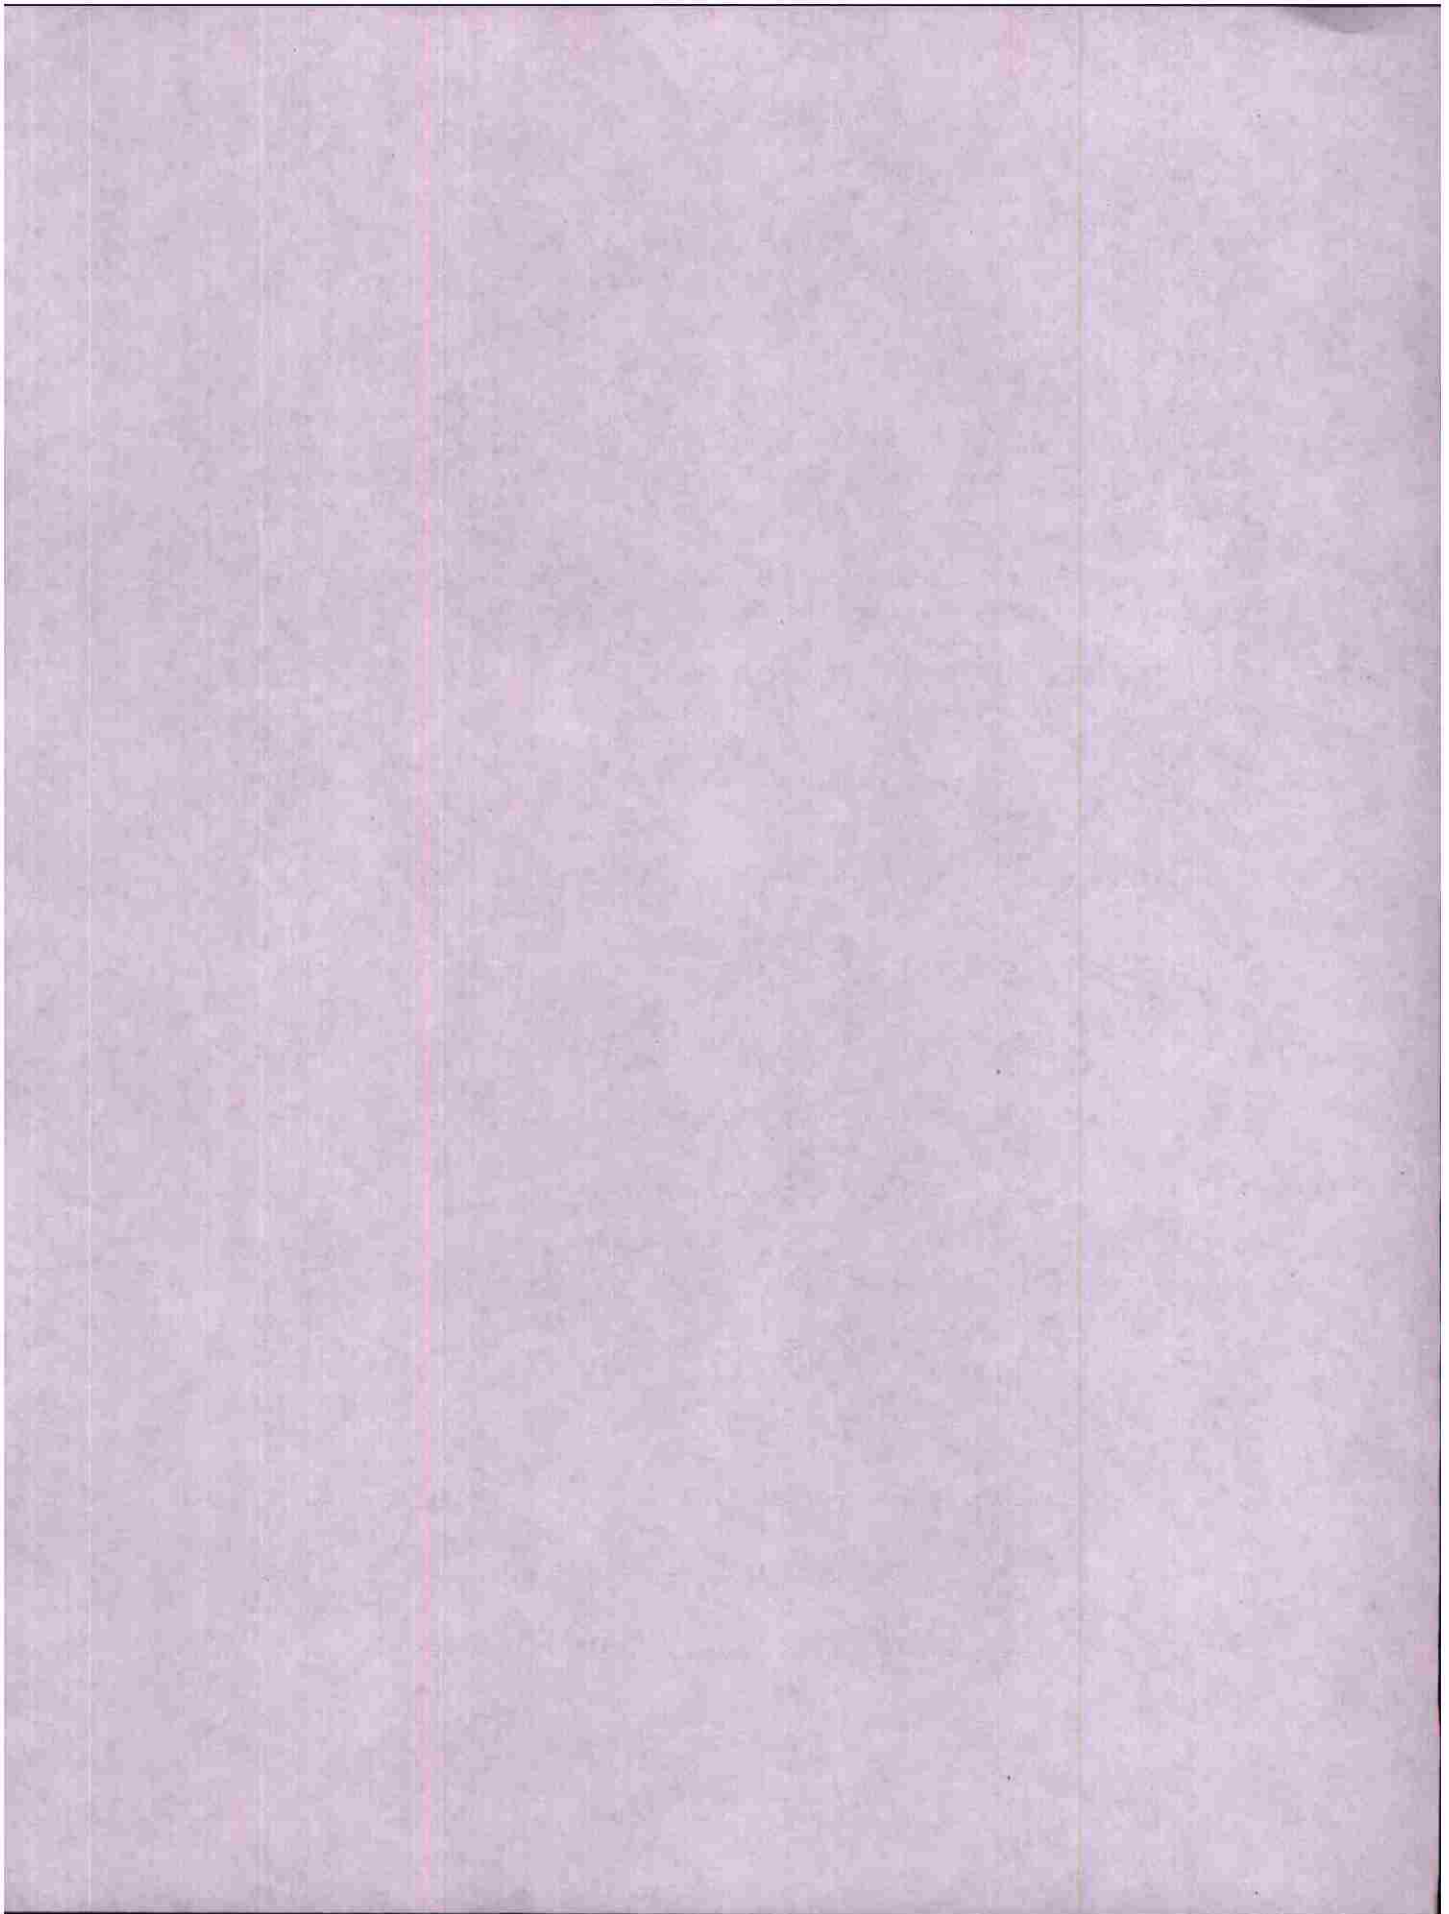

We are having a wonderful time and William drinks not less than two glasses of milk at each meal. He says that even Auntie would be satisfied with his appetite here.

We figure that you may have left Montreat and were phoning yesterday to let us know, but will mail this letter there anyway, for if you have left this will probably get home first.

I just can't thank all of you enough for being so wonderful at the wedding. We just couldn't have had it without you.

I won't start thanking you for the gifts as that deserves a book to itself.

Best love,
Elizabeth

slipping. We found the new road much better than the old way but of course longer. Around Starkville they are building high ways and we had to make a lot of detours. From Columbus to Tuscaloosa the road was better than I ever saw it. There the rest of the way was easy riding. We had two punctures the first day and that coupled with the great number of cars on the road cut out time down so it was quite when we arrived in Tuscaloosa. The second we made

MINNEKARDA
MONTREAT - NORTH CAROLINA

Dear Father,

Monday

I have gotten things about straight up here & expect to leave ^{day after} tomorrow. Getting home Thursday at 2:30 if I make the Memphis connection.

We had a pretty fine trip up. The cars behaved beautifully and the weather stayed cool and the roads after all was paved were like floors.

First day we traveled 248 miles, our road made heavy by the recent rain but they were not

very poor time. We got started late
 as mother & the girls were pretty tired. Then
 we broke the spring on the ford and
 had another puncture on the Packard.
 Also there was a bad detour to make
 just before we got to Jackson over a
 very rough road.
 The third day we got a good
 start and the roads we drive so
 we made good time 214 miles. Just
 out of Manitowish we joined the State
 Highway Commission was working
 on the road and had a lot of rough
 small rocks thrown up into the
 road. The ford cut a tire nearly into
 on one of the wheels was afraid that
 the Packard would do the same & left
 feeling bad to fix it and drove in
 to Ottumwa. They got in just a little
 while after I did the.
 The last day I set to work
 so ahead early in the morning &
 we caught them at Audubon. We

and had a fine supper ready. Mary & Carrie all bottle fine servants & Charlotte is managing things fine I hope. Mother will let her continue.

Saturday I had to go to Wade's & leave the car. The Ford was no trouble but the Packard took longer. We went over early not a lot. I had to get a new casing for the Ford as we had another blowout on the last day which just ruined the casing. We found in changing the tires on the Packard

MINNEAPOLIS

Made fine time over the best road I ever saw.

La & M.C. & S.C. have certainly got the best roads in this country. They are of sand clay, over fifty feet wide and all easy grade. The same old dirt is used however. We arrived here Friday about 4³⁰.

Presumably was tried to make best after a while they said they did not they had been working. Charlotte had the house in fine shape

that one of the old river tubes was so rotten that it wouldn't hold air. That was the first one to go down. Well I got all of them fixed up and the next day Sunday, we found another flat tire when we went out to the garage. This time it was an almost new Kelly tube which had given away when the tube is malcamaged to gether. The Kelly agency in Berkeley say that the factory will never admit that in hanging it home with me here yesterday while mamma was out riding they had another blow out. I mean the tire almost of the rim missing the tube. I hope that is the last one. In going to put the two United States tires on the rear wheel and set them away there. All our punctures have been in the old tires. They have only one spare now so we have only one tube.

Dear Mrs. Keesler,

I am a sculptor here at the field and I am planning to erect an eight-foot statue of Genl. Keesler, after whom this field was named.

I have at hand a portrait photograph of Genl. Keesler. I should appreciate your directing me to any sources from which I might gather information about the height, weight and general stature of Genl. Keesler. I will vouchsafe for any materials you may lend me. I will also appreciate any help or suggestions you may care to offer.

Thank you.

Dear Mrs. Garrard,

The varied routine of Army life has prevented me, until now, to write and thank you for sending the photographs of Lt. Keesler. They will be most helpful in my work.

I have outlined the whole project and submitted it to the proper authorities for final approval. When that is forthcoming I shall set upon my task with much fervor and enthusiasm.

I am sorry I cannot give you any more definite information about the figures at the present time, but I am hoping that the matter will soon be settled.

Thank you again for the photos.
